longer provide programming.

The 2018 Central
Iowa Area **Telephone
Directory** will be
published soon for
your convenience. If
you have listing
changes please
contact the WCCTA
office at
515-352-3151.
Listings can also be
found online at
localsolution.com or
through your WCCTA
Online Billing
account.

eMail Password Recovery

Forgot your WCCTA email password? Beginning January 9th you will see a pop up telling you a password recovery feature has been enabled for the web based access (IpSwitch). Adding an alternate email address (under action, manage users) will allow you to recover your password without having to contact the WCCTA office!

New Year, New Devices

Struggling with technology? WCCTA offers multiple options to help you with all aspects of your home network!

Contact our office in Gowrie at 352-3151 and ask about TechHome Support. The best part is the included toll free support number at 877-373-3320 that allows you to speak to someone! Have TechHome? Remember to keep your software updated!

Newsletter Contest

Congratulations to Cindy Dunne of Lanyon and Robert and Audra Paullin of Paton for finding their telephone number in this newsletter. Find YOUR phone number in this newsletter and win a \$10.00 credit on your billing statement! Contact our office at 515-352-3151 if you find your number. This month there are three numbers hidden again. Can you find them?

SRC Spotlight

The application process for NTCA: The Rural Broadband Association's Smart Rural Community included information about the importance of connecting rural healthcare.

Broadband from WCCTA is important to Jenna Sturm, PharmD, a pharmacist at Community Pharmacy in Gowrie.

"We all are connected as a unit at Stewart Memorial Community Hospital. We have four Community Pharmacy locations and broadband allows us to pull all of that data into one system which is great."

"Broadband from WCCTA ensures health and safety for our patients on a daily basis." states Jenna Sturm, PharmD, Community Pharmacy, Gowrie.

Sturm uses broadband as part of every aspect of her job. "With technology we can receive a prescription from a doctor while the patient is still at the doctor's office. We can process the prescription, ensure patient safety all through the use of broadband and have the medication ready for them before they even enter our pharmacy."

Broadband access connects the pharmacy to a number of databases and resources and allows them to receive and fill prescriptions from doctors next door at the clinic as well as across the United States. They can efficiently verify prescription accuracy and determine drug interactions to ensure patient safety. "We use broadband literally all day long every single day." adds Sturm.

How do YOU utilize your Internet connection? Do you know someone that is progressive with technology? Why is broadband important to you? WCCTA wants to hear YOUR story and how broadband impacts our rural communities. Contact Marcie at 515-352-3151.
